CS for All RPP Proposal Resubmission QUESTIONS AND DATA

1. **Succinctly restate your problem of practice and project aims.**

2. **What are the research questions your project will ask?**

3. **How will answering these questions develop knowledge that is useful to the field (to implementation and to researchers/theory)?**

4. **List the data you will collect to answer these question. When will you collect it? How will it be collected? How will it be used by your RPP team?**

Data Source	When Collected	How Collected (existing school data? new data?)	Who sees it? Who makes use of it?
